

KramerAV.com 

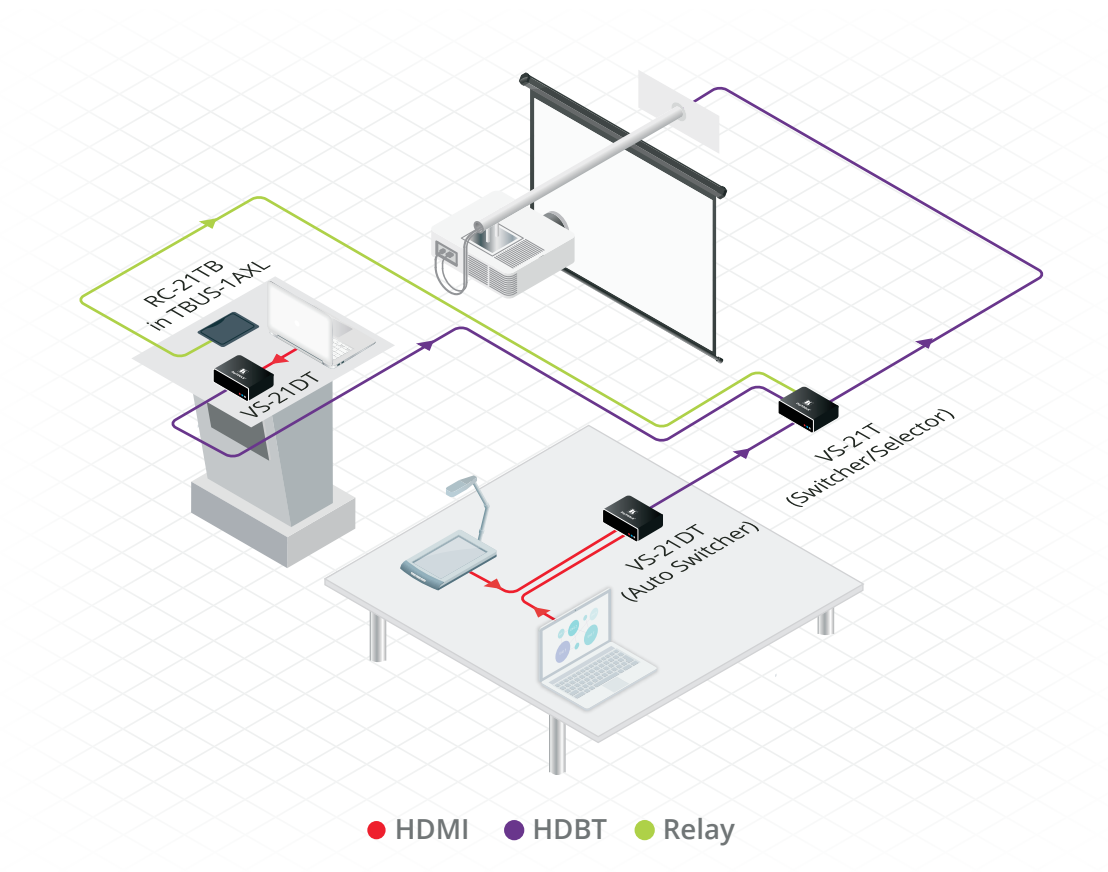

Kramer **VS-21T** is the ideal HDBaseT or Ethernet signal selector for meeting rooms, lecture halls, training rooms, and any application requiring cost-effective HDBaseT switching or Ethernet signal selection.

This super dynamic selector enables connecting **2 sources and 1 sink** – send one of the input signals to the output – or connecting **2 sinks and 1 source** – send the output signal to one of the inputs.

BENEFITS

- Easy to install, easy to use
- Requires no configuration or maintenance
- Small form factor for flexible mounting
- Relay controllable by any processor / keypad

LECTURE HALL APPLICATION EXAMPLE

VS-21T does not extend HDBaseT signals. System range depends on the HDBaseT devices used in your installation. Keypad not included.
