## KRAMER MAESTRO

### Single-Trigger, Cutting-Edge Room Automation

Designed for IT

Plug in a laptop, schedule a meeting or simply enter the room and watch the lights dim, the shades come down and projector and display turn on. That's Kramer Maestro, a single-trigger room automation solution — designed for IT. Kramer Maestro makes it simple to remotely configure, manage and monitor any room scenario, saving valuable time and resources.

- Easily configure a series of room elements
- Remotely monitor and manage
- Trigger actions based on pre-defined events
- Reduce service calls and headaches

Kramer Maestro is offered as a software enhancement to Kramer products.
