

Think Unconventional

Display up to six inputs in any combination!

MV-6

The MV-6 has everything you need when it comes to your professional broadcasting requirements. This versatile, high-performance multiviewer for 3G HD-SDI video signals can display up to six inputs in any combination, either in 4 pre-programmed screen divisions, or in 2 user-definable, customizable ones.

The MV-6 supports multi-video output formats – 3G HD-SDI, HDMI and composite, scaling, refresh rate and video standard conversion. It features Kramer's re-Klocking™ & Equalization technology, which rebuilds the digital signal to travel longer distances and is HDTV compatible. The front panel of the MV-6 has buttons to freeze, resize and position the picture.

Enjoy your multiple possibilities with Kramer's MV-6 Multiviewer.
