

# The Aspen 3G HD-SDI router goes the distance.

## HIGH QUALITY ROUTING OVER LONG DISTANCES IN A COMPACT DESIGN

Sierra Video once again introduces a family of full function, high quality routers complete with input equalizers, output re-clockers, configurable salvos, built-in browser GUI interface and superior power efficiency. The new Aspen 16x16, 32x32 and 72x72 routers offer light weight, small footprint routers with multi-rate formats up to 3Gb/s.

This perfect match of size and functionality is coupled with Aspen's innovative design for signal integrity allowing cable runs over 155 meters at 3Gb/s (200+ meters at 1.5Gb/s) with extremely low power use. Without a doubt, the affordable Aspen family is the perfect answer for any 3G HD-SDI video application.
