

MASTER OF PRESENTATION

Take full control of dramatic visual presentations. The new VP-727xl is the leader in its class, and now features the addition of HDMI inputs and outputs.

The VP-727XL In-CTRL™ Dual Scaler Seamless Switcher is a true multi-standard video to graphics scaler and seamless switcher with 8 universal inputs comprised of 5 BNCs each of which can accommodate a composite video, s-Video (Y/C), component video (RGB/YUV), RGBS, or RGBHV signal. Inputs 1 and 2 also can be configured to HDMI inputs. The unit has dual scalers, one for the preview and the other for the program output. Dual scalers are required to do "True" seamless transitions from one source to another.
