

Statement of REACH Compliance

This document certifies that Kramer products do not contain above 0.1% (w/w) of any of the 201 Substances of Very High Concern (SVHC) that are defined in Regulation (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 ("the REACH regulation") and updated on 16 July 2019, by the European Agency for Chemicals (ECHA), with the exception of products containing Lithium coin cell batteries.

The complete list of candidate SVHC materials can be found at:

<http://echa.europa.eu/web/guest/candidate-list-table>

Kramer products containing Lithium coin cell batteries have been determined to contain the following SVHC, as identified by the REACH regulation in concentrations above 0.1% (w/w):

- 1,2 dimethoxyethane, also known as ethylene glycol dimethyl ether (EGDME):
EC Number: 203-794-9
CAS Number: 110-71-4

EGMDE is commonly used in Lithium primary batteries as an electrolyte solvent and is not released under normal or reasonably foreseeable conditions of use of the batteries or of Kramer products containing such batteries. Information for manufacturers and importers on the safe usage of this substance can be found at: <https://echa.europa.eu/registration-dossier/-/registered-dossier/14829/9>

Kramer products do not contain any SVHC listed in the current edition of Annex XIV of REACH <https://echa.europa.eu/authorisation-list>.

Kramer products do not contain Annex XVII substances which are used in a manner restricted under one or more Annex XVII entry: <https://echa.europa.eu/substances-restricted-under-reach>
