Introduction

Welcome to Kramer Electronics! Since 1981, Kramer Electronics has been providing a world of unique, creative, and affordable solutions to the vast range of problems that confront the video, audio, presentation, and broadcasting professional on a daily basis. In recent years, we have redesigned and upgraded most of our line, making the best even better!

Our 1,000-plus different models now appear in 15 groups that are clearly defined by function: GROUP 1: Distribution Amplifiers; GROUP 2: Switchers and Routers; GROUP 3: Control Systems; GROUP 4: Format & Standards Converters; GROUP 5: Range Extenders & Repeaters; GROUP 6: Specialty AV Products; GROUP 7: Scalers; GROUP 8: Cables and Connectors; GROUP 9: Room Connectivity; GROUP 10: Mounting and Rack Adapters; GROUP 11: Sierra Video; GROUP 12: Digital Signage; GROUP 13: Audio; GROUP 14: Collaboration; and GROUP 15: KM & KVM Switches.

Getting Started

We recommend that you:

- Unpack the equipment carefully and save the original box and packaging materials for possible future shipment.
- Review the contents of this user manual.

Go to [www.kramerav.com/downloads/KT-107](http://www.kramerav.com/downloads/KT-107) to check for up-to-date user manuals, application programs, and to check if firmware upgrades are available (where appropriate).

Achieving the Best Performance

- Use only good quality connection cables (we recommend Kramer high-performance, high-resolution cables) to avoid interference, deterioration in signal quality due to poor matching, and elevated noise levels (often associated with low quality cables).
- Do not secure the cables in tight bundles or roll the slack into tight coils.
- Avoid interference from neighbouring electrical appliances that may adversely influence signal quality.
- Position your Kramer KT-107 away from moisture, excessive sunlight and dust.

⚠️ This equipment is to be used only inside a building.
Safety Instructions

⚠️ Caution: There are no operator serviceable parts inside the unit

⚠️ Warning: Use only the Kramer Electronics power supply that is provided with the unit

⚠️ Warning: Disconnect the power and unplug the unit from the wall before installing

Recycling Kramer Products

The Waste Electrical and Electronic Equipment (WEEE) Directive 2002/96/EC aims to reduce the amount of WEEE sent for disposal to landfill or incineration by requiring it to be collected and recycled. To comply with the WEEE Directive, Kramer Electronics has made arrangements with the European Advanced Recycling Network (EARN) and will cover any costs of treatment, recycling and recovery of waste Kramer Electronics branded equipment on arrival at the EARN facility. For details of Kramer's recycling arrangements in your particular country go to our recycling pages at www.kramerav.com/support/recycling/.

Overview

Congratulations on purchasing your Kramer KT-107 Touch Panel.

Throughout this manual KT-107 refers to both KT-107 and KT-107RB, unless specified otherwise.

KT-107RB Wi-Fi 5GHz frequency band range is restricted to up to 5.35GHz.

KT-107 is a 7-inch IPS multi-touch, powerful Touch Panel with 1280x800 resolution. The elegantly designed portable Touch Panel can be deployed either on a table or on the wall. KT-107 supports wired Power over Ethernet (PoE) and advanced Wi-Fi connectivity options.

To ensure easy installation with elegant wiring and secured mounting, the Touch Panel comes with table and wall mounts, a USB cable and a power supply unit.

The KT-107 is an Android-based Touch Panel that is ideal for any 24/7 Kramer-supported commercial AV or control application and features a user-friendly, fully customizable graphical user interface configured by Kramer software.

The KT-107 provides exceptional quality, advanced and user-friendly operation, and high-level security options.
Exceptional Quality

- Elegant Design – Smooth integration with room furniture, either on tables or walls, with flexible panel cabling and locking design options.
- Superior User Experience – IPS 1280x800 high-resolution screen with ±85° horizontal and vertical wide viewing angles, built-in lighting sensor for auto-adaptable brightness, advanced 10 multi-touch points, and 2-finger gesture capabilities.
- Powerful Processing – Quad-core CPU, GPU, 2GB RAM, 16GB ROM processing performance for smoothly running complicated media- and graphics-rich applications, encoding and decoding H.265 video and audio streams, and seamlessly operating the high-resolution 2MP HD front camera.
- Flexible Services – Advanced Android 6.0 Operating System with rich Kramer and market-available software applications offered via cloud/store, such as K-Touch Control.

Advanced and User-friendly Operation

- Easy Installation – Powering and connectivity via a single Ethernet cable.
- Flexible Mounting – Including table and wall mounts that fit into standard market-available 2 Gang in-wall junction boxes.
- Optional Connectivity – Simple wireless BTLE 4.0 Bluetooth as well as connection to USB peripheral devices for either table or wall-mount installations, using the included USB cable.
- Reliable Networking – Seamless switching between wired and wireless 802.11ac connectivity.
- Versatile Powering Options – PoE, PSU and battery.
- Auto Sensing – Optimized performance and operation according to automatically detected LAN speed.
- Firmware Upgrade – Via USB port.

Security

- Secured Deployment – Flexible locking options to prevent unwanted panel-mount removal, elegantly designed to remain out of site.
- Secured Operation – Highly secured operation of applications such as auto boot start for a selected application, password protected exit, hidden control buttons and so on.
- Red LED alert when camera is active.

Typical Applications

The KT-107 is ideal for the following typical applications:

- Control user interface in meeting and conference rooms, boardrooms, and auditoriums.
- Presentation of room scheduling.
Defining the KT-107, KT-107RB

This section defines the KT-107 Touch Panel, the tabletop and the on-wall mounts.

KT-107 Touch Panel

This section defines the KT-107.

### Feature | Function
--- | ---
9 Cover | Covers the wall mount connections and power button.
10 Power Button | Press to power on the KT-107. When powered, press briefly to open the pop-up menu and power down the device, reboot it or return to the Home-page. This button is also used for firmware upgrade (see Upgrade the Firmware via PC on page 37).
11 Volume Up (U) Button | Use for firmware upgrade. Use also to increase KT-107 speaker volume.
12 Micro USB Port | For connecting to an adjacent on-wall USB device and for firmware upgrade.
13 Flat Cable Connector | For connecting to the on-wall mount unit (see Mounting the KT-107 on a Wall on page 14).
14 Connecting Holes | For connecting to the tabletop mount or the panel mount plate

To prevent potential damage to the Touch Panel, use only Kramer supplied screws and mounts (see Mounting the KT-107 on a Table on page 9).

</table>
Mounting the KT-107, KT-107RB

The KT-107 can be placed on a table or mounted on a wall.

Always be careful when attaching or removing the Touch Panel from either mounts.

Mounting the KT-107 on a Table

When mounting KT-107 on a table:

- You can mount KT-107 either in secure mode or portable mode.
  - In secure mode, KT-107 is attached to the table (or other surface)
  - In portable mode, KT-107 is placed without damaging the table, is not secured and can be moved.
  - The cables connected to KT-107 can be hidden by connecting them under the table via the cable pass-through opening (in secure mode) or they can be connected over the table, thus remaining visible (for both mounting modes).

Preparing the Table for a Secure Mount

To mount KT-107 in portable mode, go to Setting KT-107 on the Tabletop Mount on page 12.

When mounting KT-107 on a table in secure mode, prepare the table as follows:

- Drill a hole in the table to fit the M5x60 screw used for securing the tabletop mount to the table.
- Cut an opening in the table if you need to pass the cables from underneath.

The thickness of the table should be 76.2mm (3") or less.
Use the following cutout drawing to correctly measure the location of the M5x60 screw hole and the cable pass-through opening:

![Figure 6: Cut-Out Dimensions](image)

The cut-out dimensions in Figure 6 are **not to scale**. Refer to the cut-out template available on the Kramer website at [www.kramerav.com/downloads/KT-107](http://www.kramerav.com/downloads/KT-107).

Kramer Electronics is not responsible for any damage caused to the table.

To drill the M5x60 screw hole in a table:

1. Measure the exact location on the surface of the table where you want to install the KT-107.

2. Drill a hole in the table and cut the cable pass-through opening with a saw according to the dimensions shown in Figure 6 (not to scale).

   Take care not to damage the table. Kramer Electronics is not responsible for any damage caused to the table.

To cut the cable pass-through opening (if required):

1. Carefully measure the exact location of the cable pass-through opening.

   Verify that the opening is correctly positioned in relation to the drilled M5x60 screw hole.

2. Cut out the cable pass-through opening.
Secure the Tabletop Mount

To secure the KT-107 tabletop mount:

1. Remove the rubber covers 20 from the rear tabletop mount.
2. Remove the cable cover 23.
3. Place the tabletop mount on the table.
4. Insert the M5x60 screw through the M5x60 screw opening to secure the tabletop mount to the table at the desired location.

5. Tighten the screw from under the table using an M5 Wing nut or a regular M5 nut.

Setting KT-107 on the Tabletop Mount

Before you begin, verify that the cable cover is removed.

To connect the cables and set the KT-107 on the tabletop mount:

1. Connect the RJ-45 port on the tabletop mount to the PoE-enabled network.

2. Connect the power adapter to the Power 2-pin terminal block connector on the tabletop mount and to the mains power.

3. Place the KT-107 over the tabletop mount (the Touch Panel is magnetically held in place), by first inserting the lower part of the Touch Panel then carefully laying the KT-107 in place.

We recommend that you complete KT-107 setup (see Setting up the KT-107, KT-107RB, on page 22) before securing the KT-107 to the tabletop mount. Once setup is complete, carry on with the installation process.

5. Secure the KT-107 to the tabletop mount using the two M2x4 screws (supplied) that are inserted via the openings (15) on the rear side of the tabletop mount.

6. Replace the rubber covers to hide the screws.

7. Connect the Ethernet and micro-USB cables by either passing the cables from underneath the table via the cable opening (see Preparing the Table for a Secure Mount on page 9), or by placing them over the table.
8. Replace the appropriate cover (for under-the-table or over-the-table installation).

9. Optionally, lock the tabletop mount with a Kensington locker (not supplied).

**Mounting the KT-107 on a Wall**

KT-107 can be safely installed on a wall using standard 2 Gang in-wall junction boxes. The cables are passed inside the wall and then connected to the rear side of the on-wall mount unit.

Before mounting the KT-107 on a wall, you need to install a standard 2 Gang in-wall junction box.

We recommend that you use any of the following standard 2 Gang in-wall junction boxes:

- **USA**: 2 Gang electrical junction boxes.
- **Europe**: 2 Gang in-wall junction box, 47mm minimum depth (DIN 49073).
- **UK**: 2 Gang in-wall junction box, 137x75mm, 41mm minimum depth (BS 4662).

Other popular in-wall mounting boxes may also be available in the market (such as the GEWISS 4 Gang 144x85x50mm box (GW 24 404)).
Inserting the On-Wall Mount Unit

To mount the on-wall mount unit:

1. Attach the on-wall mount unit to the installed in-wall junction box, (top side up, see the indication arrows on the mount).

2. Screw the 4 wall-mounting screws (supplied) through the screw openings. The on-wall mount screw openings are set in different locations to fit various types of in-wall junction boxes.

3. Optionally, insert the supplied right-angle OTG USB port if you need to connect the KT-107 to an external USB device.

Figure 11: Installing the On-Wall Mount Unit
Connecting the flat Cable

The flat cable passes power and PoE-enabled Ethernet to the Touch Panel.

To connect the flat cable:

1. On the rear side of the KT-107, unscrew the cover and remove (by slightly pressing downwards and then pulling out), and set the cover and screw aside.

2. Attach the panel mount plate, top side up (see arrows), to the rear of the KT-107.

3. Fit the connecting holes on the KT-107 to the screw holes on the panel mount.
4. Insert the 4 M2x4 screws (supplied) and tighten.

5. Connect the flat cable between the on-wall mount and the KT-107.

If you need to secure the KT-107 to the wall, use the Kramer KT-107-OWLK (purchased separately).

For installation instructions, see Installing the On-Wall Secure Lock on page 19.
6. Hang the KT-107 on the wall by sliding the tabs ③ on the attached panel mount plate over the grooves ⑥ on the on-wall mount unit.

Figure 15: Hanging KT-107 on the Wall
Installing the On-Wall Secure Lock

The KT-107-OWLK (supplied with the unit) secures KT-107 safely to the on-wall mount. The On-Wall Lock includes a 2-part frame (short and long part), 2 screws and 2 washers.

To secure KT-107 to the on-wall mount:

1. Insert the 2 screws (supplied) into the screw openings and insert the washers from below.

   ! This example shows the short part on top and the long part below. You can attach it with the long part on top and the short part below.

2. Place the short part (together with the screws) over the installed on-wall mount unit.

3. From below, slide the long frame part towards the short frame part.

Figure 16: Placing the Frame Parts
4. Loosely screw the top frame part to the lower frame part (do not tighten the screws).

Figure 17: Screws Loose

5. After hanging the KT-107 on the wall (Figure 14), tighten the two screws until the KT-107 is securely fixed in place.

Figure 18: Screws Tightened
Connecting Options

You can power the KT-107 using any or all of the following options:

- Connect the PoE-enabled LAN RJ-45 connector to your local area PoE-enabled network.
- Connect the power adapter to the 2-pin terminal block connector on the mount rear side.

When both PoE and the power supply are connected to the Touch Panel, the unit is powered by the power supply.

- Use the internal battery (after initially charging the battery for 8 hours).

![KT-107 Touch Panel](Image)

Figure 19: Powering the KT-107 Touch Panel

Connect to the local area Ethernet network:

- Via Ethernet cable connection to the LAN RJ-45 connector.
- Use Wi-Fi if no wired Ethernet connection is available, or as a fall-back option.

KT-107 features auto-sensing. It detects the speed of LAN devices (such as the LAN (Ethernet) switch, the router and so on) connected to KT-107 and automatically sets the KT-107 LAN port speed, accordingly.

For example:

- If the LAN switch supports 100Mbps Fast Ethernet, the KT-107 LAN port is automatically set to work at 100Mbps.
- If the LAN switch supports 1000Mbps Gigabit Ethernet, the KT-107 LAN port is automatically set to work at 1000Mbps.
Setting up the KT-107, KT-107RB

Once the tabletop mount or On-wall installation is complete and power is connected, you can slide the KT-107 in place and wait for the default opening page to appear (to change the default opening page, see Setting the Boot Start App Upon Power Up on page 27):

![KT-107 Default Opening Page](image)

**Figure 20: KT-107 Default Opening Page**

**Initial Setup**

Following installation, use the Home-page Settings application to perform the following initial setup tasks:

- [Accessing the Home-Page](#) on page 23.
- [Connecting to Wi-Fi or the Ethernet](#) on page 24.
- [Setting the Date and Time](#) on page 26.
- [Setting the Boot Start App Upon Power Up](#) on page 27.
- [Modifying the Display Settings](#) on page 28.
- [Setting the Control Button](#) on page 30.
- [Defining Control Button Password Protection](#) on page 31.
Accessing the Home-Page

By Default, the Home-page is password protected. Once KT-107 it is powered, the Kramer Control app is uploaded (by-default).

To initially access the Home-page:

1. Press the Control button.
   The following screen appears:

   ![Initial Access to Home Page](image)
   
   Figure 21: Initial Access to Home Page

2. Type the Password (Kramer by-default) and click OK.
   The Following pop-up menu appears:

   ![Pop-up Page for Home-Page](image)
   
   Figure 22: Pop-up Page for Home-Page

Connecting to Wi-Fi or the Ethernet

To Connect to Wi-Fi:

1. In the Home-page, click **Settings**.
   The Settings page appears:

   ![Figure 23: Connecting to Wi-Fi – Settings Page](image)

2. Select Wi-Fi and set to enable.
   The system searches for available Wi-Fi networks.

   ![Figure 24: Connecting to Wi-Fi – Searching for Available Networks](image)

3. Select the desired network, enter the password, if required, and click **Connect**.
To connect via the Ethernet:

1. Connect KT-107 to the network via an RJ-45 cable on the tabletop mount to the Network.

2. In the Home-page, click **Settings**.

3. Click **More** and select **Ethernet**.

![Figure 25: Connecting to Ethernet – Enabling Ethernet](image)

4. If Ethernet is disabled, enable it and wait a few seconds for Ethernet to connect. You can view all the Ethernet settings:

![Figure 26: Connecting to the Ethernet – Viewing Device Settings](image)
**Setting the Date and Time**

To set the date and time:

1. In the Home-page, click **Settings**.

   ![Figure 27: Settings – Date & Time](image)

2. Scroll down to the System area and click **Date & time**.

   ![Figure 28: Settings – Automatic Date & Time](image)

3. Enable **Automatic date & time** to derive the date and time from the network. If disabled, set the date and time manually.

4. Select the time format.
Setting the Boot Start App Upon Power Up

By-default KT-107 includes the following apps:

- Kramer Control (set as the default)
- K-touch

To set which of these will appear upon start up:

1. In the Home-page, click **Settings**.
2. Select **Control**.
3. Click **Select Boot Start App**.
   The following window appears:

4. Select one of the Apps to appear upon startup, or select **None**.
For example, when selecting **None**, no app is uploaded upon start up:

![Figure 30: KT-107 Home-Page when no App is Selected](image)

**Modifying the Display Settings**

To modify Display Settings:

1. In the Home-page, click **Settings**.

![Figure 31: Settings - Display](image)
2. Click **Display**.

![Settings – Display Setup]

3. Define the following (as required):
   - Set the Brightness:
     - Brightness level.
     - Adaptive brightness – automatically adjusts the brightness level based on room ambient room lighting.
     - Content Adaptive Brightness Control – automatically adjusts the brightness level based on the displayed content.
   - Enable the following status bars to show the bars (default is Hide, to prevent tampering with the Touch Panel):
     - Always hide the bottom status bar.
     - Always hide the top status bar.
The following table defines how to access the Home-page when the bars are hidden, under the following conditions: the Control button is enabled or disabled and the Touch Panel is or is not password protected (default password is Kramer).

<table>
<thead>
<tr>
<th>Control Button Enabled</th>
<th>Control Button Disabled</th>
</tr>
</thead>
<tbody>
<tr>
<td>Press the Control button [7]. The Power/reset pop-up screen appears (see Figure 32):</td>
<td>Press rear-side power button [10]. Power/reset pop-up screen appears (see Figure 32). Go to Home-page.</td>
</tr>
<tr>
<td>• If Home-page Exit is not password protected, switch to Home-page.</td>
<td>Or:</td>
</tr>
<tr>
<td>• If Home-page Exit is password protected (see Defining Control Button Password Protection on page 31), enter the correct password and switch to Home-page.</td>
<td>Click power-off and wait for system shut-down. Press rear-side power button to power on. The Touch Panel powers up. Go to Home-page.</td>
</tr>
</tbody>
</table>

**Setting the Control Button**

The KT-107 Control button is located under the Kramer logo [7]. Use the Settings > Control to:

- Enable/disable the Control button.
- Set the button as password protected (when enabled) or not.
- Change the password if required.

Use the Control button as follows:

- Press for 2 seconds for the pop-up menu to appear and select Power off, Reboot or Home-page (see Defining Control Button Password Protection on page 31).

![Figure 32: Using a Hidden Control Button](image)

When the Touch Panel is off, turn it on again via the power button [10] on the rear side of the Touch Panel.
To enable/disable the control button:

1. In the Home-page, click **Settings**.
2. Select **Control**.
3. Enable or disable the control button.

**Defining Control Button Password Protection**

Password protection is used to prevent an unauthorized person from exiting an application program.

When the Control button is disabled, this option is disabled too.

To enable/disable password protection:

1. In the Home-page, click **Settings**.
2. Select **Control**.
3. Click **Control button password protected** to enable or disable this feature (see **Figure 33**).

The protected exit password is “Kramer”.

To change the password:

1. In the Home-page, click **Settings**.
2. Select **Control**.
3. Click **Change password**: 

![Password Set](image)

Figure 34: Changing the Password

4. Enter the current password and then the new password (and Confirm Password).

5. Click **OK**.
Additional KT-107 Important Functions

This section describes the following additional KT-107 functions:

- About Touch Panel Page on page 33
- Top Bar Functions on page 34
- Lower Bar Functions on page 34

About Touch Panel Page

The About page summarizes all the Touch Panel information, such as system updates.

To view Touch Panel information:

1. In the Home-page, click **Settings**.
2. Scroll down and select **About touch panel**. The About touch panel screen appears:

![About touch panel](image)

Figure 35: About the KT-107 Touch Panel
Top Bar Functions

The top bar displays various messages such as time and date, battery status and so on.

Lower Bar Functions

Use the lower bar functions as follows:

- Decrease volume
- Return to Home-page
- Click to go back
- Show all open windows
- Increase volume

Figure 36: Top Bar Functions

Figure 37: KT-107 Lower Bar Functions
Upgrading the Firmware

To upgrade the firmware:

- **Setup your PC for Firmware Upgrade**, on page 35.
- **Install the RockChip Driver Assistant**, on page 35.
- **Prepare the KT-107 for Firmware Upgrade**, on page 37.
- **Upgrade the Firmware via PC**, on page 37.

Setup your PC for Firmware Upgrade

To prepare the PC for upgrading the KT-107 or KT-107RB:

   - Verify that you are using the correct KT-107 or KT-107RB firmware file (according to your device type).
   - The FW-upgrade-tools zip file includes both ‘Rockchip_DriverAssistant’ and ‘KT FW Upgrade Tool’ upgrade tools.
2. Copy the ‘KT-107 Firmware Release xx’ (or ‘KT-107RB Firmware Release xx’), ‘FW Upgrade Tool’ and ‘Rockchip_driverAssistant’ files and unzip them to local folders on your PC.
   - Verify that the ‘KT-107 Firmware Release xx’ (or ‘KT-107RB Firmware Release xx’) folder includes the ‘Update.img’ file for KT-107 or KT-107RB upgrade.

**DO NOT** change the ‘Update.img’ file name.

Install the RockChip Driver Assistant

If the ‘Rockchip_driverAssistant’ driver is already installed on your PC, skip this section and proceed to **Prepare the KT-107 for Firmware Upgrade** on page 37.

If it is not installed or if you are unsure, complete the installation steps in this section.

To install the driver:

1. In the ‘Rockchip_driverAssistant’ folder, open ‘Driver Assistant’.
2. Double click ‘DriverInstall.exe’
3. Click **Run** to install the ‘DriverInstall’ tool on your PC.

![Image](image1.png)

Figure 38: Installing the Driver

4. **Click Install Driver.**

   The following window appears:

![Image](image2.png)

Figure 39: Driver Installation Security Note

5. **Click Install** repeatedly on the next few screens until the driver is successfully installed.

![Image](image3.png)

Figure 40: Successful Installation

6. Click **OK**.
Prepare the KT-107 for Firmware Upgrade

To prepare the KT-107:

1. Verify that the battery is at least 70% charged.
2. Disconnect the panel from its mount (see Mounting the KT-107, KT-107RB on page 9).
3. Power-off the panel (from behind 10 or via the Kramer control button 7 on the front of the Touch Panel).
4. Connect the PC USB port directly to the micro-USB port 11 on the rear of the KT-107 (do not use the port on the mount) via a USB cable with data-transfer-capabilities (supplied with the unit).

⚠ You can connect up to 8 Touch Panel devices to upgrade simultaneously.

Carefully place the KT-107 in a way that does not cause damage to the USB cable or port.

Upgrade the Firmware via PC

To upgrade the firmware:

1. In the ‘KT FW Upgrade Tool’ folder, double-click ‘Kramer Touch Panel FW Upgrade Tool.exe’.
   The FW Upgrade Tool window appears:

   ![Firmware Upgrade Tool](image)

   Figure 41: Firmware Upgrade Tool
2. Click the … button next to the FW Path text box to select the path to the Update.img file in the unzipped ‘KT-107 Firmware Release xx’ folder.

![Figure 42: Update File Loaded](image)

3. On the rear side of the Touch Panel, press the Volume-up button together with the Power button for a few seconds until the ON front panel LED dimly lights green and the ‘1’ indication (or more, depending of the number of devices that are connected for firmware upgrade) in the Connected Devices area of the FW Upgrade Tool window shows that the device is connected to the PC (turns green).

If you have connected more than one device, repeat steps 3 and 4 above for each USB connected Touch Panel.
If the connection process fails, press and hold the Power button until the unit powers down and then restart the FW upgrade process.

4. Click **Upgrade** (after all the Connected Devices icons turn green). The upgrade progress is displayed:
5. Wait for the green “Success” message to appear:

![Firmware Upgrade Complete](image)

Following successful firmware installation, wait for the Touch Panel to power up. This process may take a few minutes.

Specifications are subject to change without notice at [www.kramerav.com](http://www.kramerav.com)
The warranty obligations of Kramer Electronics Inc. ("Kramer Electronics") for this product are limited to the terms set forth below:

What is Covered

This limited warranty covers defects in materials and workmanship in this product.

What is Not Covered

This limited warranty does not cover any damage, deterioration or malfunction resulting from any alteration, modification, improper or unreasonable use or maintenance, misuse, abuse, accident, neglect, exposure to excess moisture, fire, improper packing and shipping (such claims must be presented to the carrier), lightning, power surges, or other acts of nature. This limited warranty does not cover any damage, deterioration or malfunction resulting from the installation or removal of this product from any installation, any unauthorized tampering with this product, any repairs attempted by anyone unauthorized by Kramer Electronics to make such repairs, or any other cause which does not relate directly to a defect in materials and/or workmanship of this product. This limited warranty does not cover cartons, equipment enclosures, cables or accessories used in conjunction with this product.

Without limiting any other exclusion herein, Kramer Electronics does not warrant that the product covered hereby, including, without limitation, the technology and/or integrated circuit(s) included in the product, will not become obsolete or that such items are or will remain compatible with any other product or technology with which the product may be used.

How Long this Coverage Lasts

The standard limited warranty for Kramer products is seven (7) years from the date of original purchase, with the following exceptions:

1. All Kramer VIA hardware products are covered by a standard three (3) year warranty for the VIA hardware and a standard three (3) year warranty for firmware and software updates.
2. All Kramer fiber optic cables and adapters, active cables, cable retractors, all Kramer speakers and Kramer touch panels are covered by a standard one (1) year warranty.
3. All Kramer Cobra products, all Kramer Calibre products, all Kramer Minicom digital signage products, all HighSecLabs products, all streaming, and all wireless products are covered by a standard three (3) year warranty.
4. All Sierra Video MultiViewers are covered by a standard five (5) year warranty.
5. Sierra switchers & control panels are covered by a standard seven (7) year warranty (excluding power supplies and fans that are covered for three (3) years).
6. K-Touch software is covered by a standard one (1) year warranty for software updates.
7. All Kramer passive cables are covered by a ten (10) year warranty.

Who is Covered

Only the original purchaser of this product is covered under this limited warranty. This limited warranty is not transferable to subsequent purchasers or owners of this product.

What Kramer Electronics Will Do

Kramer Electronics will, at its sole option, provide one of the following three remedies to whatever extent it shall deem necessary to satisfy a proper claim under this limited warranty:

1. Elect to repair or facilitate the repair of any defective parts within a reasonable period of time, free of any charge for the necessary parts and labor to complete the repair and restore this product to its proper operating condition. Kramer Electronics will also pay the shipping costs necessary to return this product once the repair is complete.
2. Replace this product with a direct replacement or with a similar product deemed by Kramer Electronics to perform substantially the same function as the original product.
3. Issue a refund of the original purchase price less depreciation to be determined based on the age of the product at the time remedy is sought under this limited warranty.

What Kramer Electronics Will Not Do Under This Limited Warranty

If this product is returned to Kramer Electronics or the authorized dealer from which it was purchased or any other party authorized to repair Kramer Electronics products, this product must be insured during shipment, with the insurance and shipping charges prepaid by you. If this product is returned uninsured, you assume all risks of loss or damage during shipment. Kramer Electronics will not be responsible for any costs related to the removal or re-installation of this product from or into any installation. Kramer Electronics will not be responsible for any costs related to any setting up this product, any adjustment of user controls or any programming required for a specific installation of this product.

How to Obtain a Remedy Under This Limited Warranty

To obtain a remedy under this limited warranty, you must contact either the authorized Kramer Electronics reseller from whom you purchased this product or the Kramer Electronics office nearest you. For a list of authorized Kramer Electronics resellers and/or Kramer Electronics authorized service providers, visit our web site at www.kramerav.com or contact the Kramer Electronics office nearest you.

In order to pursue any remedy under this limited warranty, you must possess an original, dated receipt as proof of purchase from an authorized Kramer Electronics reseller. If this product is returned under this limited warranty, a return authorization number, obtained from Kramer Electronics, will be required (only). You may also be directed to an authorized reseller or a person authorized by Kramer Electronics to repair the product. If it is determined that this product should be returned directly to Kramer Electronics, this product should be properly packed, preferably in the original carton, for shipping. Cartons not bearing a return authorization number will be refused.

Limitation of Liability

THE MAXIMUM LIABILITY OF KRAMER ELECTRONICS UNDER THIS LIMITED WARRANTY SHALL NOT EXCEED THE ACTUAL PURCHASE PRICE PAID FOR THE PRODUCT. TO THE MAXIMUM EXTENT PERMITTED BY LAW, KRAMER ELECTRONICS IS NOT RESPONSIBLE FOR DIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM ANY BREACH OF WARRANTY OR CONDITION, OR UNDER ANY OTHER LEGAL THEORY. Some countries, districts or states do not allow the exclusion or limitation of relief, special, incidental, consequential or indirect damages, or the limitation of liability to specified amounts, so the above limitations or exclusions may not apply to you.

Exclusive Remedy

TO THE MAXIMUM EXTENT PERMITTED BY LAW, THIS LIMITED WARRANTY AND THE REMEDIES SET FORTH ABOVE ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, REMEDIES AND CONDITIONS, WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED. TO THE MAXIMUM EXTENT PERMITTED BY LAW, KRAMER ELECTRONICS SPECIFICALLY DISCLAIMS ANY AND ALL IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IF KRAMER ELECTRONICS CANNOT LAWFULLY DISCLAIM OR EXCLUDE IMPLIED WARRANTIES UNDER APPLICABLE LAW, THEN ALL IMPLIED WARRANTIES COVERING THIS PRODUCT, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL APPLY TO THIS PRODUCT AS PROVIDED UNDER APPLICABLE LAW. IF ANY PRODUCT TO WHICH THIS LIMITED WARRANTY APPLIES IS A "CONSUMER PRODUCT" UNDER THE MAGNUSON-MOSS WARRANTY ACT (15 U.S.C. §2301. ET SEQ.) OR OTHER APPLICABLE LAW, THE FOREGOING DISCLAIMER OF IMPLIED WARRANTIES SHALL NOT APPLY TO YOU, AND ALL IMPLIED WARRANTIES ON THIS PRODUCT, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR THE PARTICULAR PURPOSE, SHALL APPLY AS PROVIDED UNDER APPLICABLE LAW.

Other Conditions

This limited warranty gives you specific legal rights, and you may have other rights which vary from country to country or state to state.

This limited warranty is void if (i) the label bearing the serial number of this product has been removed or defaced, (ii) the product is not distributed by Kramer Electronics or (ii) this product is not purchased from an authorized Kramer Electronics reseller. If you are unsure whether a reseller is an authorized Kramer Electronics reseller, visit our web site at www.kramerav.com or contact a Kramer Electronics office from the list at the end of this document.

Your rights under this limited warranty are not diminished if you do not complete and return the product registration form or complete and submit the online product registration form. Kramer Electronics thanks you for purchasing a Kramer Electronics product. We hope it will give you years of satisfaction.
SAFETY WARNING

Disconnect the unit from the power supply before opening and servicing

For the latest information on our products and a list of Kramer distributors, visit our Web site where updates to this user manual may be found.

We welcome your questions, comments, and feedback.
