### New Features:

**Security Certification** – All Via products were tested by an external organization.

	New Feature Description
3790 3701	Versa driver does not change to be the default driver when running VIA from your desktop. This change solved the problem of Echo sound when using Versa in combination of Zoom / Teams + sharing screen on VIA gateway. The problem occurred since the operating system cannot use Versa driver if it is already in use.
