

## USER MANUAL

### **MODEL:**

VM-10H2

Firmware Upgrade

# VM-10H2 Firmware Upgrade Procedure

You will need:

- Mini USB to USB type-A cable
- Computer

## To Upgrade the VM-10H2 Firmware

1. Push the **VM-10H2** #8 DIP switch to the down position.
2. Turn the power switch ON.
3. Connect the PROGRAM Mini-USB Connector on the front panel of VM-10H2 to the computer with the mini USB to USB type-A cable.  
The device installs itself on your computer as an external USB storage device.
4. Copy the new firmware .bin file to this external USB storage device folder.
5. Use the Windows “Safely Remove Storage Device” utility to disconnect from the computer.  
The output LEDs light one at a time in sequence.
6. Push the **VM-10H2** #8 DIP switch to the up position.
7. Power cycle **VM-10H2**.
